

Kit # 109

Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive ☺ But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Side folding navy card base
- 1 large white card stock panel
- 1 small white card stock panel
- 1 spotted navy card stock panel
- 2 white Love diecuts
- 5 colored heart diecuts:
 - 2 red, 1 orange, 1 green, 1 blue
- 1 red You sentiment
- 1 white envelope*
- Foam squares

Let's Begin!

We'll construct the card front first.

We'll use the spotted navy cardstock piece, the 4 colored hearts (1 Red, Orange, Green and Blue), the two 'Love' die cuts and the red 'You' piece to construct the front panel of the card.

1. Use small dots of liquid glue to adhere the love diecuts to each other and set them aside. Before the glue dries you'll have just a second to align them to be matched up perfectly.
2. Decide the placement of your hearts on your spotted navy panel and adhere them in place. To match my design -align them Red, Orange, Green and Blue. To get my overlap look I glued them in this order: Orange, Red, green then blue. Allow some parts to hang off the edge. We'll trim those later. Use the finished card picture for guidance.
3. Use small dots of liquid glue to adhere your 'Love' diecut (2 glued together, now) at an angle across the top of the blue spotted panel. Make sure to leave room for the red 'You' sentiment.
4. Use foam squares to adhere the 'You' sentiment below the Love diecut.
5. Turn the spotted navy panel over and use a scissor to trim off any overhanging edges.
6. Adhere the completed card front to the larger white card stock panel making sure to leave an even white border showing along the edge.
7. Finish your card front by adhering your constructed card panel to your navy blue card base. Making sure to leave an even border of navy showing along the edge.

Let's decorate the inside of our card!

1. Adhere the remaining red heart to the upper right corner of the white panel- letting some of the heart hang off the edge.
2. Turn panel over and trim off excess.
3. Adhere inside panel making sure to leave an even border of navy showing along the edge.

And you did it!

**Thank you so much for crafting with me!
