Kit # 121

Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive ☺ But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

1 Navy Card Base
1 Large Vellum Panel
1 Small Vellum Panel
1 Floral paper1 Navy Panel
1 Thank You sentiment
1 Light Blue Panel
1 Creme Panel
2 Foam pieces
1 Coordinating envelope*
1 Mailing liner
(mailing liner only needed if you mailing your card)**
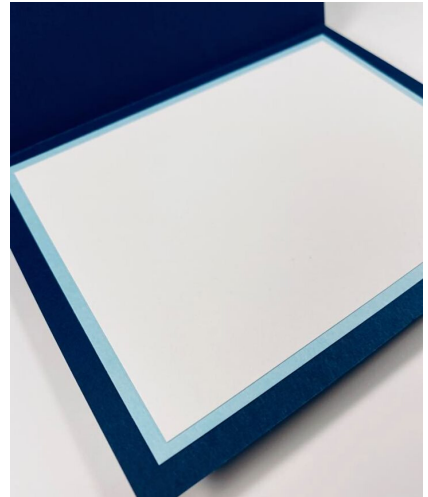

Let's Begin!

We'll construct the card front first.

You'll need the small and large vellum panels, floral paper, navy panel, sentiment and the foam pieces.

1. Adhere the sentiment piece to the navy panel, making sure to leave an even border of blue showing along each edge.

2. Next, adhere that layered sentiment to the small vellum panel, making sure to leave an even border of vellum showing along each edge.

3. Now adhere the floral paper to the large vellum panel, making sure to leave an even border of vellum showing along each edge.

4. Adhere the large foam piece behind the large vellum panel. Secure that to the front of your card base, leaving an even border of blue showing along each edge.

5. Adhere the small foam piece behind your 3-layered sentiment and secure that to the center of your card front. (see example picture for placement ideas.)

Now let's decorate the inside of our card!

1. Adhere your creme panel to your light blue panel, making sure to leave an even border of blue showing along each edge.
2. Adhere that layered piece to the inside of your card base.

And you did it!

**Thank you so much for crafting with me!
Don't forget to use the hashtag #sandiscardscreations on instagram to share your finished product and be featured in my story!**

*Confirm postage needed when mailing
*mailing liner is used as a barrier over the card front to protect it during shipping
