

Let's Begin!

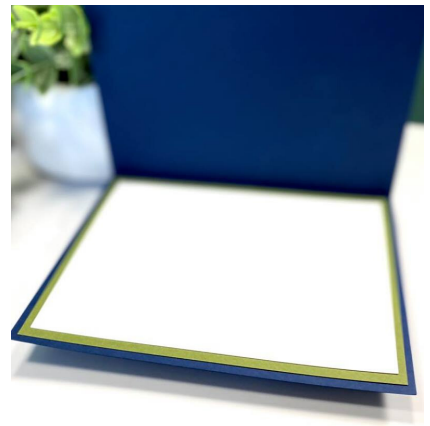

We'll construct the card front first.

You'll need the large white panel, the green text panel, the love you die cut letters, and the embellishment hearts.

1. Begin by adhering the Love You letters onto your green text panel. I recommend you place them first to find the right spacing, then glue 1 letter at a time using small dots of liquid glue. Also, using a ruler might help to get them straight.
2. Next adhere your green text panel to your large white panel making sure to leave an even border of white showing along each edge.
3. Now adhere that layered panel to the front of your card base and your card front is almost finished!
4. Finally, add your heart embellishments for decoration. I recommend small dots of liquid glue for this. (Use example picture for placement ideas)

Now let's decorate the inside of our card!

1. Adhere your plain green panel to the inside of your card base making sure to leave an even border of blue showing along each edge.
2. Now adhere your small white panel on to the green panel making sure to leave an even border of green showing along each edge.

You Did it!
