

Kit #144

Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive ☺ But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Blue card base
- 1 Light blue cloud panel
- 2 Green grass strips (1 light, 1 dark)
- 1 Stamped sentiment
- 1 Red rectangle
- 2 Yellow sun pieces (1 solid, 1 vellum)
- Chicken die cut pieces (head, body, wing, tail feathers, red crop, beak, feet)
- 1 Blue flower patterned strip
- 1 Light green panel
- 1 White panel
- Foam squares
- 1 Mailing liner
(mailing liner only needed if you mail your card)**
- 1 Coordinating envelope*

Let's Begin!

We'll construct the card front first.

You'll need the blue cloud panel, the sentiment and red rectangle, the 2 sun pieces, the chicken die cut pieces and the green grass strips.

1. Let's begin by constructing our Adorable chicken. Adhere the red crop to the back of the chicken head so that it sticks out the top. Next adhere the beak. See example pictures for placement ideas. Now adhere the head of the chicken to the body making sure it sits just over the top of it. Lastly adhere the wing, tail feather and feet. Isn't it cute!
2. Now let's put our scene together. Adhere the light green grass strip towards the bottom section of the blue cloud panel. Next adhere the dark green grass strip over the bottom of the light green strip. Trim off any excess that hangs over the sides.
3. Now, adhere the 2 sun die cuts together with the vellum circle behind the solid circle. Make sure to leave an even border of yellow vellum showing along the edge.
4. Adhere the stamped sentiment to the upper portion of the red rectangle letting the sentiment hang off the bottom. See example picture for placement ideas.
5. Using the 3 constructed elements (chicken, sentiment, sun) decide the layout of your card front and adhere them into place. Use the foam squares when adhering the chicken for added dimension.
6. Lastly, adhere the constructed card front to your card base making sure to leave an even border of blue showing along each edge.

Now let's decorate the inside of our card!

1. Adhere the blue flower piece to the bottom of the light green panel and trim off any excess.
2. Next, adhere the layered green panel onto the white panel making sure to leave an even border of white showing along each edge.
3. Lastly, adhere the constructed panel to the inside of your card base making sure to leave an even border of blue showing along each edge.

And you did it!
