## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 1 White lined panel
- 1 Light blue lined panel
- 1 Stamped kraft brown tag
- 1 Twine piece
- 1 Set sequins
- 1 Palm die cut
- 1 Leaf stem die cut
- 1 Patterned envelope liner
- 1 Kraft brown panel
- Foam squares
- 1 Mailing liner  
(mailing liner only needed if you mail your card)\*\*
- 1 Coordinating envelope\*

## Let's Begin!

We'll construct the card front first.

You'll need the white and light blue lined panels, the stamped tag and twine piece, the sequins, the palm die cut and the foam squares.

1. Begin by adding the foam squares behind the light blue panel. Next adhere it to the white lined panel aligning the right edge. See example picture for placement ideas.
2. Now adhere the palm die cut in the open space of the blue panel. Use sparing dots of glue to leave some of the leaves free.
3. Add a foam square to the back of the stamped tag. Cut the twine in half and thread a piece of twine through each hole. Holding the twine away from the adhesive, adhere the stamped tag to the decorated panel.
4. To attach the twine pieces at each end of the tag, fold the ends to the back of the white panel and adhere them with double sided tape.
5. Next, adhere the constructed panel to the card base aligning it on every side. TIP: using a liquid craft glue will allow time for adjustments
6. Finally, use small dots of liquid glue to adhere the sequins to the card front for decoration. See example picture for placement ideas.

**That's it! Now let's decorate the inside of the card.**

1. Adhere the Kraft brown panel to the inside of the card base making sure to leave an even border of white showing along each edge.
2. Adhere the green leaf stem onto the Kraft brown panel for added decoration. See example picture for placement ideas.

Now let's add the Envelope liner.

1. Fold the liner on the pre-scored line so that the patterned sides come together.
2. Insert the liner into the envelope and line up the fold with the crease of the envelope flap.
3. Next, add adhesive along the angled edges on the non-patterned side. Close the envelope flap down over the adhesive to seal them together. The lower section will remain free.

**Thank you so much for crafting with me!  
Don't forget to use the hashtag #sandiscardscreations on  
instagram to share your finished product and be featured  
in my story!**
