## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 1 White panel
- 3 Heart die cuts
- 1 Hello die cut
- 1 Green panel
- 1 Foam panel- adhesive backed
- 1 Green patterned envelope liner
- 1 Coordinating envelope\*

Let's Begin!

We'll construct the card front first.

You'll need the white panel, the hearts, the hello and the foam panel.

1. Begin by adhering the 3 hearts onto the white panel. Trim any excess. See example picture for placement ideas.
2. Next adhere the hello die cut to the decorated panel. See example picture for placement ideas.
3. Add the foam panel to the back of the decorated card front panel and then adhere that to the front of the card base. Make sure to leave an even border of white showing along each edge.

**That's it! Now let's decorate the inside of the card.**

1. Adhere the green panel to the inside of the card base making sure to leave an even border of white showing along each edge.
2. Finally, slide the green patterned envelope liner into the envelope. Align the score line of the patterned paper with the fold line of the closing flap. The pattern should be facing you so it's seen when the envelope is opened. Adhere the green liner to the envelope along the top edges. See envelope liner example picture.

**Thank you so much for crafting with me!  
Don't forget to use the hashtag #sandiscardscreations on  
instagram to share your finished product and be featured  
in my story!**
