## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Ivory card base
- 7 Ivory strips
- 1 Wish I Could Hug You die cut and ivory backer set
- 3 Dandelion die cuts (2 ivory, 1 gold)
- 1 Kraft panel
- 7 Foam strips (adhesive backed)
- 1 Envelope liner
- 1 Coordinating envelope\*
- 1 Mailing Liner\*\* (mailing liner only needed if you mail your card)

Let's Begin!

We'll construct the card front first.

You'll need the Wish I Could Hug You die cut and backer, the 7 ivory strips, the dandelion die cuts and the foam strips.

1. Let's begin by adhering the Wish I Could Hug You die cut to the ivory backer. Use small dots of liquid glue on the back of the words. Tap any excess off onto a scratch paper to help keep any extra glue from squishing out. It should line up with the edges leaving an even border of ivory showing along each edge. To add the dot for the 'i', I suggest putting a small dot of liquid glue onto the ivory backer and then set the dot onto the glue. (the example picture shows a heart inside the letter 'd'. Your kit does not include that, I'm sorry for any confusion)
2. Next, remove the release paper and add the foam strips to the back of each ivory strip. (optional- cut 2 small pieces of foam from the strips to use later with the dandelions)
3. Now you will add the foam backed ivory strips to the card base. I recommend a light application of liquid glue to allow you to adjust the position. Begin by adhering one strip to the far left position, leaving an even border showing along the side and top/bottom. See example picture for placement ideas.
4. Now repeat this for the strip that will sit on the far right. Leave an even border showing along the side and top/bottom.
5. Continue adhering the strips one at a time, working your way to the center. Leave an even border between each strip and align them at the top and bottom.
6. Now adhere the Wish I Could Hug You sentiment to the front of the card. See example picture for placement ideas.
7. To finish the front of the card, tuck the dandelion die cuts behind the sentiment and glue in place. (optional- use foam to pop up the dandelion heads for added dimension)

**That's it! Now let's decorate the inside of the card.**

1. Adhere the kraft panel to the inside of the card base making sure to leave an even border of ivory showing along each edge.
2. For the envelope, slide the envelope liner into the envelope. Align the score line of the patterned paper with the fold line of the closing flap. The pattern should be facing you so it's seen when the envelope is opened. Adhere the dandelion liner to the envelope along the top edges. See sample picture for adhesive placement.
