Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Black card base
- 1 Ink blended sunrise panel
- 1 Nativity die cut
- 1 Foam panel (adhesive backed)
- 1 White panel
- 1 Blue panel
- 1 Mailing liner
(mailing liner only needed if you mail your card)**
- 1 Coordinating envelope*

Let's Begin!

We'll construct the card front first.

You'll need the sunrise panel, the nativity die cut and the foam panel.

1. Begin by using small dots of glue to adhere the nativity die cut to the sunrise panel. It should sit at the bottom edge of the panel and reach from side edge to edge. If there is any overhang, just trim the excess with scissors.
2. Next, adhere the foam panel behind the decorated sunrise panel. One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
3. Adhere the card front panel to the card base making sure to leave an even border of black showing along each edge.

That's it! Now let's decorate the inside of our card.

1. Adhere the blue panel to the white panel making sure to leave an even border of white showing along each edge.
2. Now adhere that layered blue and white panel to the inside of the card base making sure to leave an even border of black showing along each edge.

And you did it!
