

# Kit #191

## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive 😊 But you can always just use what you have!

## Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

## Contents:

- 1 White card base
- 1 White cutout panel
- 1 Pink panel
- 6 Heart stickers
- 2 White heart embellishments
- 6 Foam strips- adhesive backed (2 large, 2 medium, 2 thin)
- 6 Foam squares- adhesive backed
- 1 Mailing liner  
(mailing liner only needed if you mail your card)\*\*
- 1 Coordinating envelope\*

Let's Begin!

We'll construct the card front first.

You'll need the the card base, the cutout panel, the foam strips, the foam squares, and the heart stickers

1. First, let's build up the cutout panel with foam strips. This will add dimension to the card front. On the back of the cutout panel, add the 2 large, 2 medium and 2 thin strips to the unmarked lines. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
2. Using a liquid craft glue or strong double sided tape adhere the foam backed cutout panel to the front of the card base making sure to leave an even border of white showing along each edge.
3. Next, add one foam square to the back of each heart sticker and add it to the center of each framed square on the front of your card. TIP: The sticker adhesive is strong enough to hold the foam in place. Add the foam square- foam side down- to the back of the heart sticker and then you only need to remove the release paper from the back of the foam and it's ready to add to the card.

**Now let's decorate the inside of our card!**

1. Adhere the pink panel to the inside of your card base, making sure to leave an even border of white showing along each edge.
2. Now, use small dots of liquid glue to decorate the inside of your card with the white heart embellishments.

**And you did it!**

**Thank you so much for crafting with me!  
Don't forget to use the hashtag #sandiscardscreations on  
instagram to share your finished product and be featured  
in my story!**

\*Confirm postage needed when mailing

\*\*mailing liner is used as a barrier over the card front to protect it during shipping
