

Kit 195

Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 2 Gray panels
- 6 Balloon die cuts (2 white, 2 green, 1 blue, 1 lime)
- 3 Cloud die cuts
- 1 Sentiment die cut set
- 1 Black and white string
- 1 String die cut
- Heart embellishments
- Foam square
- 1 Mailing liner
(mailing liner only needed if you mail your card)**
- 1 Coordinating envelope*

Let's Begin!

We'll construct the card front first.

You'll need the balloon die cuts (except 1 green balloon for the inside of the card), the sentiment, 2 clouds (the last is for the inside), the hearts and 1 gray panel.

1. Begin by adhering 1 white, 1 green, 1 lime and 1 blue balloon die cut at the bottom of the gray panel. Allow them to overhang the edge and then trim any excess. See example picture for placement ideas.
2. Next, use double sided tape to adhere one end of the black and white string to the back of the remaining white balloon. Use the foam square to adhere the white balloon to the gray panel and then trim any excess. *One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
3. Now determine the placement for the balloon string and trim to the right length. For interest, add bends in the string and use small dots of liquid glue to tack down the string as needed. See example picture for placement ideas.
4. Use a light application of glue to adhere the sentiment die cuts to the gray panel. See example picture for placement ideas. TIP: Add glue to a scrap paper and gently tap the die cut into the glue to add a light layer of adhesive to the back of the sentiment.
5. Adhere the clouds to the gray panel. Allow them to hang over the edge for interest and then trim any excess.
6. Use small dots of liquid glue to adhere the hearts for added decoration.
7. Adhere the decorated panel to the front of the card base making sure to leave an even border of white showing along each edge.

That's it! Now let's decorate the inside of the card.

1. Use the remaining gray panel, green balloon, and balloon string die cut to decorate the inside of the card. You can add the trimmed and remaining cloud pieces too, if you'd like. See example picture for placement ideas.
2. Now adhere the decorated panel to the inside of the card base making sure to leave an even border of white showing along each edge.

And you did it!
