

# Kits: A, B, C

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive 😊 But you can always just use what you have!

## Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

## Contents:

- 3 White card bases
- 2 Green panels
- 2 Coral panels
- 2 Purple panels
- 6 Striped panels in 3 colors
- 3 Sentiment die cut sets
- Foam squares
- 1 Mailing liner  
(mailing liner only needed if you mail your card)\*\*
- 1 Coordinating envelope\*

## Let's Begin!

We'll construct the card front first.

You will construct each of the 3 cards the same way. Let's construct the purple/Here For You card front first.

You'll need the card base, 1 solid purple panel, the 3 stripe purple panel (the 2 stripe horizontal panel will be used for the inside of the card), the Here For You sentiment set and 2 foam square rectangles.

1. Adhere the white Here For You sentiment to the black backer.
2. Next, adhere the solid purple panel to the bottom half of the front of the card base. It will overhang the edge. Trim any excess.
3. Now adhere the striped purple panel to the card front making sure to leave an even border showing along each edge. See example picture for placement ideas.
4. Finally, use the foam squares to adhere the layered sentiment to the front of the card. See example picture for placement ideas. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.

**Now let's decorate the inside of our card!**

1. Adhere the remaining solid purple panel to the inside of the card, aligning it along the bottom edge. Trim any excess.
2. Now add the remaining striped panel to the inside of the card leaving an even border showing along each edge. See example picture for placement ideas.

**And you did it!**
