Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive ☺ But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 1 White panel etched with diamond shapes
- 3 Diamond shape panel pieces (pink at bottom)
- 1 Pink panel (inside)
- 1 Gold panel (inside)
- 1 Set of 18 flowers
- 1 Large flower set (7 pc)
- 2 Green leaves
- 1 Gold embellishment set
- 1 Gold Hello die cut with vellum backer
- 1 Set foam diamond shapes (adhesive backed) and foam square
- 1 Mailing liner (mailing liner only needed if you mail your card)**
- 1 Coordinating envelope*

Let's Begin!

We'll construct the card front first.

You'll need all elements except the pink and gold panels.

1. Begin by creating the floral background panel out of the white panel that is lightly etched with diamond shapes. Adhere the small flowers to it along the center 2 columns allowing the flowers to hang over the edges. See example picture for placement ideas. Trim any excess
2. Next remove the release paper and add the diamond shaped foam pieces to the back of the pink and white diamond shapes. Use the shape of the paper to show you where each foam piece fits.
3. Then, using a liquid glue, adhere the foam backed diamond pieces to the designated spaces on the etched panel.
4. Adhere the decorated panel to the front of the card base, aligning each edge.
5. To construct the large white flower, I recommend you practice the placement before adding any adhesive. Once you have decided on placement, adhere all pieces together. The two smallest flower elements will sit on the edge of two of the petals. See example picture.
6. Now adhere the two larger pieces so that they meet in the middle. See example picture.
7. Finally, add the pink and gold centers. See example picture.
8. Adhere the two green leaves to the back of the flower so that they show on the sides. See example picture for placement ideas.
9. Use a light application of liquid glue to adhere the gold Hello to its vellum backer.
10. Use the large flower and Hello sentiment together to determine placement on the card front and then adhere them in place. I've included a foam square to pop up the flower and add dimension.
11. Finish the card front by using small dots of glue to adhere the gold embellishments. See example picture for placement ideas.

Now let's decorate the inside of our card!

1. Adhere the pink panel to the gold panel leaving a small gold border showing along each edge.
2. Now, adhere the layered pink and gold panel to the inside of the card base making sure to leave an even border of white showing along each edge.

And you did it!

Thank you so much for crafting with me!

Don't forget to use the hashtag #sandiscardscreations on instagram to share your finished product and be featured in my story!

*Confirm postage needed when mailing

**mailing liner is used as a barrier over the card front to protect it during shipping
