

# May Kit B

## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Black card base
- 1 Black panel
- 2 Black star die cuts
- 1 White, 1 Aqua, 1 Purple star die cuts
- 2 White circles
- 1 Set of star insert pieces
- 1 Stamp sentiment
- 1 Blue panel
- 1 foam strip
- 1 foam panel
- 1 Mailing liner  
(mailing liner only needed if you mail your card)\*\*
- 1 Coordinating envelope\*

## Let's Begin!

We'll construct the card front first.

You'll need the black panel, two black stars, star insert pieces, sentiment, foam strip and two circles.

1. To begin, adhere 1 circle behind each black star, making sure it is centered.
2. Next, inlay the star insert pieces in the patterns shown. Use the example picture for reference. When finished, you will have two completed stars in two different patterns. I have included extra insert pieces if you'd like to change the pattern.
3. Now, the white tipped star needs to be quartered. Do this by cutting it in half, two times. Tip: make note of how the star is cut exactly on the tip of the point.
4. Adhere the aqua-tipped star to the center of the black panel. Now, adhere the four other star pieces to the corners of the black panel. The star tips might touch. See example picture for ideas.
5. Use the foam panel to adhere the card front to the card base.  
\*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
6. Finally, adhere the sentiment to the card front using the foam strip. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.

**That's it! Now let's decorate the inside of the card.**

1. Adhere the aqua panel to the inside of the card base making sure to leave an even border of black showing along each edge. Use any of the remaining star die cuts for added decoration. See example picture.

**And you did it!**

**Thank you so much for crafting with me!  
Don't forget to use the hashtag #sandiscardscreations on  
instagram to share your finished product and be featured  
in my story!**
