

Oct'23 Kit A

Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 1 Colorful panel
- 1 Plaid panel
- 3 Sweater die cuts
- 2 Hugs die cuts
- 3 Heart embellishments
- 3 Foam squares
- 1 Coordinating envelope*

Let's Begin!

We'll construct the card front first.

You'll need everything except the plaid panel and 1 heart embellishment. These will be used to decorate the inside of your card.

1. To begin, adhere the colorful panel to the front of the card base. Leave even spacing at the top and bottom.
2. Next, use the 3 foam squares to adhere the sweaters to the colorful panel. See example picture for placement ideas. *One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
3. Adhere the 2 Hugs die cuts together using a light application of liquid glue. Then, add that to the center sweater.
4. Lastly, adhere the heart embellishments. See example picture for placement ideas.

That's it! Now let's decorate the inside of the card.

1. Adhere the plaid panel to the inside of the card making sure to leave an even border of white showing along each edge.
2. Add the remaining heart embellishment for decoration.

And you did it!

**Thank you so much for crafting with me!
Don't forget to use the hashtag #sandiscardscreations on
instagram to share your finished product and be featured
in my story!**
