

# Kit #204

## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 2 Red plaid panels (1 large, 1 small)
- 1 Black panel
- 1 White panel
- 3 Sweaters
- 3 Merry die cuts (2 white, 1 black)
- 3 Foam squares
- 1 Coordinating envelope\*

Let's Begin!

We'll construct the card front first.

You'll need the large plaid panel, the black panel, the sweaters, the merry die cuts and the foam squares.

1. To begin, adhere the large plaid panel to the front of the card base. It should fit edge to edge.
2. Next, add the black panel to the front of the card. It will fit edge to edge on each side and leave a border of red showing at the top and bottom. See example for placement ideas.
3. Now, adhere the 3 Sweaters to the card front using the foam squares. See example picture for placement ideas. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
4. (Optional) I've included 3 Merry die cuts so that they can be layered to create a more dimensional sentiment. 2 layers of white with the black on top. If you prefer, you can use a single layer. Then adhere it to the front of the card. See example picture.

**That's it! Now let's decorate the inside of the card.**

1. Adhere the white panel to the remaining red plaid panel making sure to leave an even border of red showing along each edge.
2. Lastly, add the layered plaid panel to the inside of the card making sure to leave an even border of white showing along each edge.

**And you did it!**

**Thank you so much for crafting with me!  
Don't forget to use the hashtag #sandiscardscreations on  
instagram to share your finished product and be featured  
in my story!**
