## Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 Black card base
- 1 White panel- brick lines
- 1 White panel- stamped (inside)
- 1 Set White brick pieces (9 short, 7 long)
- 1 Set Yellow brick pieces (6 short, 2 long)
- 2 Large coffee cup die cut sets (cup, sleeve, lid, lid rim)
- 1 Black rectangle (plain)
- 1 Sign die cut set (sign board, frame, sentiment arch, letter stickers)
- 1 Small coffee cup die cut set (cup, sleeve, lid, heart)
- Foam squares-adhesive backed
- 1 Coordinating envelope\*
- 1 Mailing Liner\*\*

Let's Begin!

We'll construct the card front first.

You'll need the brick lines panel, the white and yellow brick pieces, the large coffee cup die cuts, the black rectangle, the sign die cuts, and the foam squares.

1. Let's start with the brick background panel. To make this, you will need the white panel with the brick lines on it and the white and yellow brick rectangle pieces. During the cutting process I noticed that some of the paper was slightly damaged on the backside of the bricks. If your brick has a rough side, you will need to turn it over and use the reverse side. The brick background pattern has been lightly debossed on the white panel. This is your template for your bricks. Adhere the white and yellow bricks onto the panel. I have included a picture of my pattern for you to follow. The bricks will hang over the edge of the panel, trim any excess.
2. Next, construct the sign. Adhere the brown frame to the black sign board. Use the letter stickers to add the word 'COFFEE' to the center of the sign board. Now, adhere the sentiment arch at the top of the sign. See example picture.
3. To make the two large coffee cups, adhere the brown 'sleeve' to the front of the cup over the middle section. Now, adhere the lid rim to the bottom of the lid piece. Add the lid to the top of the cup.
4. Adhere the brick background panel to the front of the black card base making sure to leave an even border of black showing along each edge.
5. Adhere the black rectangle towards the bottom of the brick panel. This will act as a background for the coffee cups. See example picture.
6. Now, using the two thin foam squares, adhere the coffee cups to the front of the card. See example picture for placement ideas. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.
7. Using the large foam square, adhere the sign at the top of the card front. See example picture. \*One side of the foam is adhesive backed, you will need to add adhesive to the remaining side.

**That's it! Now let's decorate the inside of the card.**

1. Construct the small coffee cup with the remaining cup, sleeve and lid. Add the red heart for decoration on the sleeve. See example picture.
2. Adhere the small coffee cup to the remaining white panel.
3. Add the decorated panel to the inside of the card making sure to leave an even border of black showing along each edge.

**Thank you so much for crafting with me!**

**Don't forget to use the hashtag #sandiscardscreations on instagram to share your finished product and be featured in my story!**

**All instructions can be found on the Card Kit  
Instructions page at [sandiscards.com](http://sandiscards.com)**

**\*Confirm postage needed when mailing  
\*\*mailing liner is used as a barrier over the card front to protect it during shipping**
