Let's Make Beautiful Things Together

Just some info: ADHERE means to stick your card elements together using a tape runner, a double sided tape, a liquid craft glue or any combination of those. If I specify a type of adhesive, that's because the situation will work BEST using the recommended adhesive. But you can always just use what you have!

Where to Start?

First confirm you have all card elements and pre-plan your card layout. Just to get an idea of how you want it to look.

Contents:

- 1 White card base
- 1 Dark pink panel
- 1 Light pink panel
- 1 Thick line design panel
- 1 Thin line design panel
- 3 White balloon strings
- 1 Bear die cut
- 1 Goodie bag (Hi sentiment, bear nose, balloon tie)
- 1 Balloon set (white, fat heart, dark pink)
- 1 Thin heart die cut
- 1 Coordinating envelope*
- 1 Mailing Liner**

Let's Begin!

We'll construct the card front first.

You'll need all elements except the light pink panel.

1. To begin, adhere the dark pink panel to the front of the card base. It will fit edge to edge.
2. Next, adhere the thick line design panel to the dark pink panel. It will fit edge to edge. Take care to secure the four side edges and some spots in between. You do not need to apply glue to every line of the design.
3. Now, adhere the thin line design panel over top of thick design making sure to secure the four side edges. Leave some of the diamond shapes free of adhesive to add interest and shadows. See example picture.
4. Adhere the black nose to the bear and then add the bear to the card front. He should sit along the bottom edge. See example picture for placement ideas.
5. Glue the pink balloon tie (goodie bag) to the bottom of the fat heart balloon. Only the lined portion should be visible. See example picture.
6. Now, adhere the 3 white balloon string die cuts to the back of each balloon so that they extend from each balloon tie. See example picture.
7. While the strings are unsecured, arrange the 3 balloons on the card front so that the strings will reach down towards the bear paw.
8. Fit the thin pink heart into the paws of the bear and tuck the balloon strings behind it. Then adhere them into place with a light application of liquid glue.
9. Now, adhere the white "hi" onto the pink backer and add it to the card front.

That's it! Now let's decorate the inside of the card.

1. Adhere the light pink panel to the inside of the card making sure to leave an even border of white showing along each edge.

You did it!

**Thank you so much for crafting with me!
Don't forget to use the hashtag #sandiscardscreations on
instagram to share your finished product and be featured
in my story!**
